

Blueprint Health

NYC - Soho

Program Details

- **Industry:** Healthcare
- **Funding:** \$20k
- **Duration:** 3 months
- **Stage:** Early to seed
- **Equity:** 6%

Blueprint Health offers a comprehensive twelve-week program designed to support the growth of startups. Throughout the program, founders are encouraged to relocate to New York City to maximize their program experience. The focus of Blueprint Health is on helping portfolio companies achieve their specific objectives, which typically involve marketing and sales consulting, customer development, and fundraising assistance. While the program is most beneficial for companies that have already begun generating sales or are in the fundraising phase, Blueprint Health accepts both early-stage startups and those already generating revenue (up to \$1M in ARR). Recognizing the importance of sales and investment for startups, Blueprint Health aims to provide support rather than create distractions from these critical goals. During the program, founders engage in various networking activities to expand their connections, alongside their regular business responsibilities. Blueprint Health strives to

ICONYC Labs

Alley NYC 119 W 24th St, 4th Floor New York, NY10011

Program Details

- **Industry:** Tech - software
- **Funding:** \$20k
- **Duration:** 4 months
- **Stage:** Seed, post seed
- **Equity:** varies per company

ICONYC Labs, headquartered in New York City, serves as a value-add investor and strategic partner for early-stage Israeli startups aiming to achieve global success. Annually, ICONYC identifies the most promising Israeli entrepreneurs and collaborates with up to 10 innovative tech startups to validate and accelerate their businesses efficiently within the US market. With a focus on maximizing capital utilization, our team, equipped with extensive collective experience and an unparalleled network, provides comprehensive business, funding, and operational support both in NYC and internationally. The partnership journey commences with a 4-month acceleration program, encompassing several key components, such as business and funding acceleration, generating brand awareness, accessing strategic advisor networks, and connecting with the ICONYC network.

Idea 2 Scale - The Field Academy

1216 Broadway, New York, NY 10001 (remote programming)

Program Details

- **Industry:** FoodTech, AgTech
- **Cohort Size:** 20-50 companies
- **Duration:** 3 months
- **Stage:** pre-seed to seed

The Field Academy offers a comprehensive program specifically tailored to assist FoodTech and AgTech startups in becoming market and investor ready. Through a structured curriculum, customized content, and mentorship, we equip early-stage companies with the necessary tools for success. Our global network of early-stage investment partners is actively seeking to fund the most promising startups we discover. Operating virtually, we collaborate with founders from around the world, focusing on the fundamental aspects of building high-growth companies to prepare them for scalability. The program specifically caters to pre-seed and seed stage startups seeking early-stage funding. Successful applicants are provided with the opportunity to pitch our network of investors who have a keen interest in the sector. Whether you are developing a scalable company anywhere in the world that targets the farm to fork value chain, we encourage you to get in touch with us. Although applications are current

The Hatchery - B2B Ventures

447 Broadway, 2FL #381, New York, NY 10013

Program Details

- **Industry:** B2B
- **Stage:** early

The Hatchery offers an exclusive platform for innovators in New York to engage with investors, showcase their plans, gain valuable insights, and create opportunities for funding. Central to our approach is the Gauntlet, an interactive process that provides entrepreneurs with a platform to present their strategies to a diverse group of investors. Within The Hatchery, B2B Ventures serves as the enterprise incubator specializing in leveraging big data. We collaborate closely with corporations to establish and nurture new technology companies. B2BV brings together essential resources for accelerated growth, including access to customers, funding opportunities, experienced founders, patent expertise, legal support, and scalability solutions.
